Breathe. Pause. Smile.

Wellness sessions, not medical treatment. Every project is planned around safety, comfort and the space it lives in.

THE RANGE

Five chambers, one standard

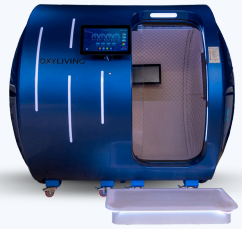

From a private single-seat pod to a four-person chamber, every model shares real-time monitoring, two-way voice communication, an automatic emergency system and customisable interiors.

Avicenna

1 PERSON

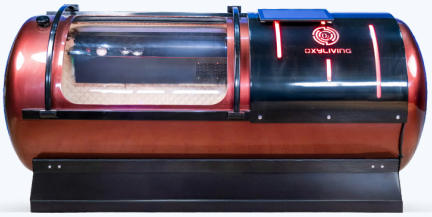

Upright pod · seated · operating 1.2–2.0 ATA · max 2.5 ATA

Farabi

2 PEOPLE

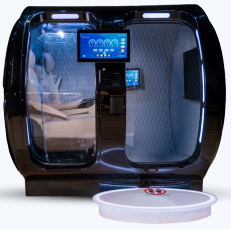

Seated chamber · operating 1.2–2.0 ATA · max 2.5 ATA

Cezeri

1 PERSON

Horizontal · lying · operating 1.2–2.0 ATA · max 2.5 ATA

Taragay

UP TO 4 PEOPLE

Multi-person · seated · operating 1.2–2.0 ATA · max 2.0 ATA

Taragay XL

UP TO 4 PEOPLE

Premium multi-person · operating 1.2–2.0 ATA · max 2.0–2.5 ATA

MODEL 01

AVICENNA

Single-seat hyperbaric wellness pod

A private, upright pod for one: a single armchair upholstered to order, soft ambient light and a control panel within reach. Its own compact oxygen module produces oxygen on demand, so there are no cylinders to store, swap or refill.

KEY SPECIFICATIONS

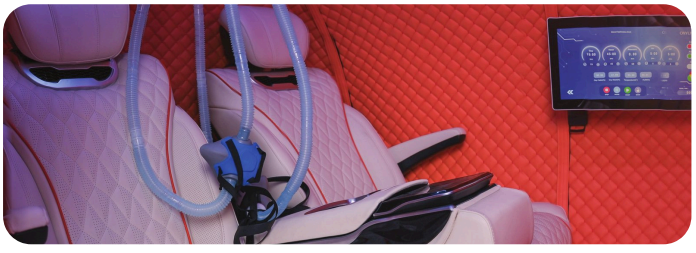

CAPACITY **1 person**	OPERATING PRESSURE **1.2–2.0 ATA**	MAX PRESSURE **2.5 ATA**
DIMENSIONS (W×L×H) **190×160×190 cm**	INTERNAL DIAMETER **166 cm**	WEIGHT **655 kg**
OXYGEN MODULE **93% · 20 L/min**	VENTILATION **250 L/min**	OPERATING TEMP. **10–27 °C**

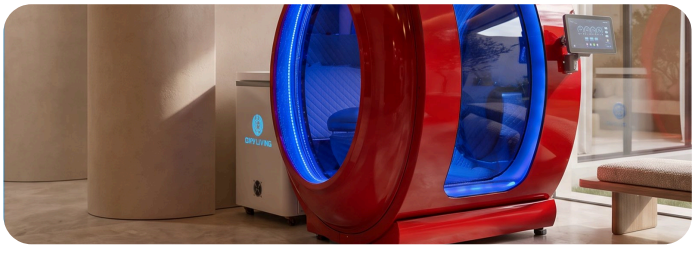

STANDARD FEATURES

- Real-time monitoring
- Two-way voice communication
- Automatic emergency system
- Automatic & manual pressure balancing
- Preloaded standard session profiles
- Modular, detachable design
- One-touch automatic door
- Ambient LED cabin lighting
- Water-cooled, quiet operation

OPTIONS & CUSTOMISATION

- Premium leather and technical-fabric upholstery
- Flame-retardant material options
- Cabin surface in a wide range of RAL colours
- On-site oxygen module: no external tanks or refills

FARABI

Two-seat hyperbaric wellness chamber

A spacious seated chamber for two, suited to clinics, performance centres and premium wellness spaces. Its modular build lets you start simple and add comfort and technology options over time.

KEY SPECIFICATIONS

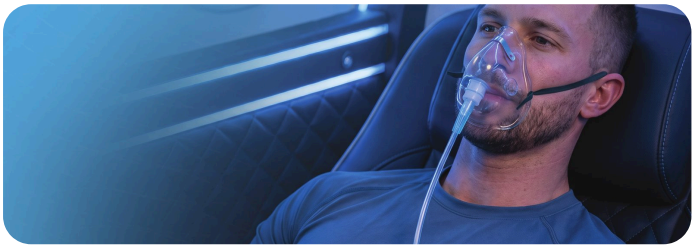

CAPACITY **2 people**	OPERATING PRESSURE **1.2–2.0 ATA**	MAX PRESSURE **2.5 ATA**
OXYGEN **Up to 95%**	O2 CAPACITY **40 L**	BODY MATERIAL **Aviation aluminium**
VENTILATION **250 L/min**	OPERATING TEMP. **10–27 °C**	DIMENSIONS · WEIGHT **On request**

STANDARD FEATURES

- Real-time monitoring
- Two-way voice communication
- Automatic emergency system
- Automatic & manual pressure balancing
- Preloaded standard session profiles
- Modular architecture for future upgrades

OPTIONS & CUSTOMISATION

- 40-inch smart monitor inside the cabin
- Automatic adjustable seating
- Bed-style layout option
- Fully customisable interior and exterior
- Additional monitoring system on request

MODEL 03

CEZERI

Horizontal single-person chamber

Designed for lying down in comfort, Cezeri pairs a calm, refined interior with dual-sensor technology that monitors critical parameters from two independent points at the same time.

KEY SPECIFICATIONS

CAPACITY **1 person**	POSITION **Lying**	OPERATING PRESSURE **1.2–2.0 ATA**
MAX PRESSURE **2.5 ATA**	DIMENSIONS (W×L×H) **97×237×111 cm**	INTERNAL DIAMETER **90 cm**
WEIGHT **225 kg**	VENTILATION **250 L/min**	OPERATING TEMP. **10–27 °C**

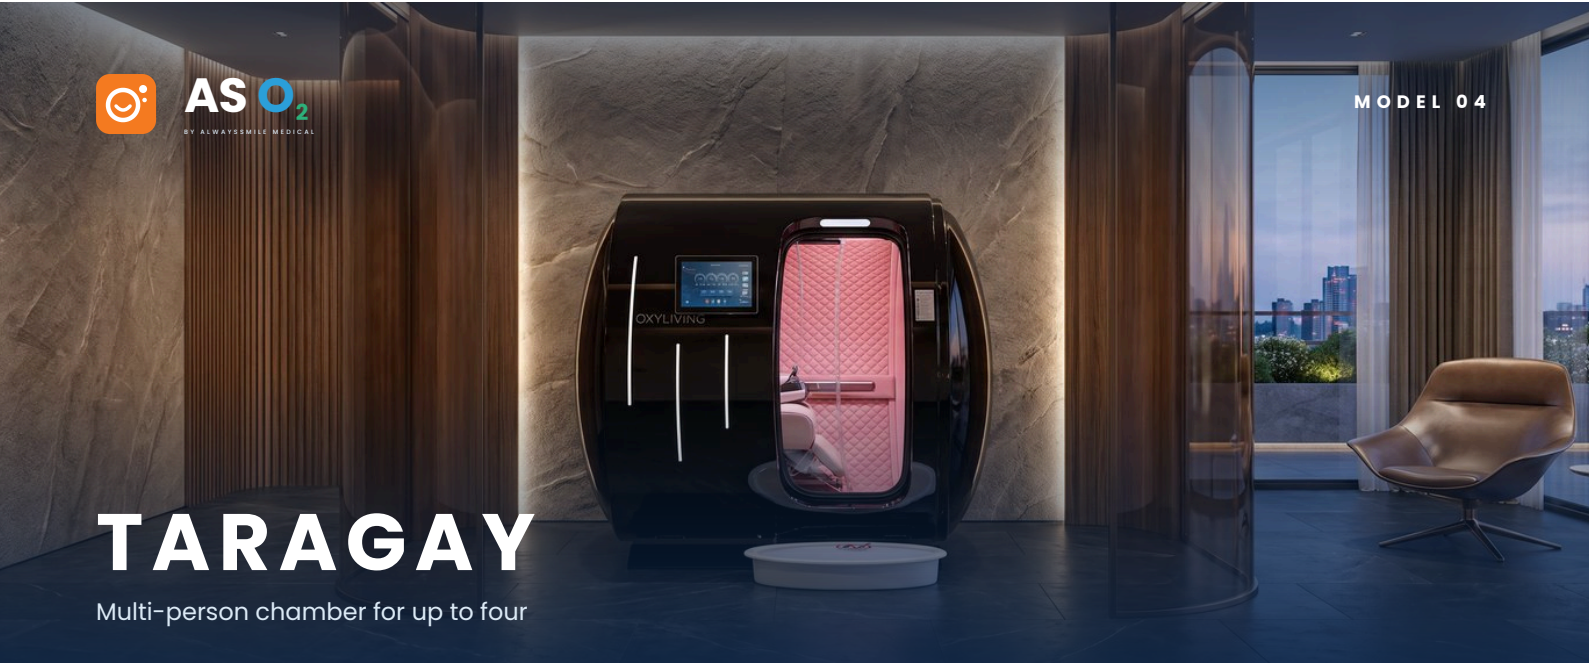

STANDARD FEATURES

- Real-time monitoring
- Two-way voice communication
- Automatic emergency system
- Automatic & manual pressure balancing
- Preloaded standard session profiles
- Modular, detachable design

DESIGN HIGHLIGHTS

- Dual-sensor monitoring from two independent points
- Precise sealing performance
- Effortless operation
- Customisable interior colours and materials

TARAGAY

Multi-person chamber for up to four

Built for simultaneous use by up to four people, Taragay combines stable pressure performance with a spacious interior. Its modular, customisable configuration adapts to gyms, clinics and wellness venues.

KEY SPECIFICATIONS

CAPACITY **Up to 4 people**	OPERATING PRESSURE **1.2–2.0 ATA**	MAX PRESSURE **2.0 ATA**
DIMENSIONS (W×L×H) **185×292×195 cm**	INTERNAL VOLUME **5.8 m³**	WEIGHT **1,000 kg**
O2 CAPACITY **80 L**	BODY MATERIAL **Aviation aluminium**	VENTILATION **250 L/min**

STANDARD FEATURES

- Real-time monitoring
- Two-way voice communication
- Automatic emergency system
- Automatic & manual pressure balancing
- Preloaded standard session profiles
- Modular architecture for future upgrades

OPTIONS & CUSTOMISATION

- 40-inch smart monitor inside the cabin
- Automatic adjustable seating
- Bed-style layout option
- Fully customisable interior and exterior
- Additional monitoring system on request

TARAGAY XL

Premium four-person chamber

The premium configuration of Taragay, created for hotels and high-end wellness venues. A refined design, intuitive operation and a comfort-focused interior bring a distinctive experience to modern hospitality.

KEY SPECIFICATIONS

CAPACITY **Up to 4 people**	OPERATING PRESSURE **1.2–2.0 ATA**	MAX PRESSURE **2.0–2.5 ATA**
DIMENSIONS (W×L×H) **185×292×195 cm**	INTERNAL VOLUME **5.8 m³**	O2 CAPACITY **80 L**
BODY MATERIAL **Aviation aluminium**	VENTILATION **250 L/min**	WEIGHT **On request**

STANDARD FEATURES

- Real-time monitoring
- Two-way voice communication
- Automatic emergency system
- Automatic & manual pressure balancing
- Preloaded standard session profiles
- Modular architecture for future upgrades

OPTIONS & CUSTOMISATION

- 40-inch smart monitor inside the cabin
- Automatic adjustable seating
- Bed-style layout option
- Fully customisable interior and exterior
- Additional monitoring system on request

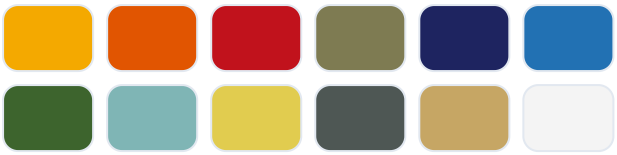

MAKE IT YOURS

Designed around your space

Every chamber can be finished to match your brand and interior, and our architectural designer plans the room around it: access, circulation, power and ventilation.

CABIN SURFACE COLOURS

Choose from an extensive RAL colour range for the cabin exterior. Samples shown for illustration.

INTERIOR & TEXTILES

- Premium leather and technical fabrics
- Flame-retardant material options
- Wide textile collection in many colours and textures
- Interior lighting and colour to match your space

ON-SITE OXYGEN

A compact oxygen module draws oxygen from the surrounding air and delivers it on demand, with a water-cooled, closed-loop system. No cylinders to store, swap or refill.

PLANNING YOUR ROOM

Before delivery we review access routes, door clearances, floor loading, power and ventilation, so installation day runs smoothly.

MANUFACTURING CERTIFICATIONS

ISO 9001:2015	**ISO 13485**	**ISO 14001**	**ISO 45001**	**ISO 3834-2**

Quality, medical-device quality, environmental, occupational health and safety, and welding quality management systems held by the manufacturer.
